SUBJECT INDEX

- Acrosome in boar spermatozoa, Morphological defects of 149
- Action of the anticoccidial clazuril on the endogenous stages of *Eimeria labbeana* and *E. columbarum* in experimentally infected pigeons 117
- Acute phase response in the dog following surgical trauma 107
- Altered disposition of propylthiouracil in cats with hyperthyroidism 1
- Amputation in chickens, Neural consequences of partial toe 374
- Analysis of ovine peripheral blood lymphocyte subjects following Ficoll-Hypaque separation or erythrocyte lysis 253
- Anatomy of the blood supply to the flank of the sheep 307
- Anthelmintic resistant nematodes, A larval development test for detection of 50
- Anthelmintic treatment and pasture management on productivity and control of nematode parasites in weaner-yearling beef cattle, Effect of strategic 31
- Anthelmintics, In vitro response of *Haemonchus contortus* larvae harvested during different times of the patent period to 264
- Antibody responses of sheep vaccinated with foot rot vaccines 68
- Antibody-containing cells in the ovine mammary gland following intraperitoneal and intramammary immunisation, Origin of 156
- Arrested development of *Trichostrongylus tenuis* as third stage larvae in red grouse 256
- Attempted immunisation of cats against feline infectious peritonitis using canine coronavirus 383
- Aujeszky's disease (pseudorabies) in naturally infected and artificially inoculated piglets using BW B759U (9-[1,3-dihydroxy-2-propoxymethyl] guanine), Therapy of 54
- Autoantibodies in feline hyperthyroidism 300
- Autofluorescence of bovine ligamentum nuchae, cartilage, heart valve and lung measured by microscopy and fibre optics 230
- Babesia bovis* antigen to protect cattle against heterologous strain challenge, Failure of a recombinant 267
- Babesia microti*, Effect of carrier erythrocytes containing inositol hexaphosphates on 262
- BHV1 and PI3 viruses, Immune protection of interferon by cultured peripheral blood mononuclear cells from calves infected with 198
- Blood gastrin and pepsinogen responses to subclinical infection with *Ostertagia ostertagi* in adult dairy cattle 130
- Blood supply to the flank of the sheep, Anatomy of 307
- Bone growth and physal thickness in the growing goat, The relationship between the rate of 83
- Bone growth in the foal, Effect of dyschondroplasia on 78
- Bovine viral diarrhoea virus associated with signs resembling swine fever, Natural infections of pigs with 137
- Bovine viral diarrhoea virus infections in piglets born to sows vaccinated against swine fever with contaminated vaccine 143
- Breathing in goats, Mechanics of 332
- Bronchitis virus vaccines against heterologous challenge, Efficacy of infectious 22
- Brucella abortus*, Restriction endonuclease analysis of 251
- Budgerigars (*Melopsittacus undulatus*), Ultrastructure and secretory nature of the seminal glomus in 194
- BW B759U (9-[1,3-dihydroxy-2-propoxymethyl] guanine), Therapy of Aujeszky's disease (pseudorabies) in naturally infected and artificially inoculated piglets using 54
- Canine parvovirus infection: preparation of challenge virus, Studies on 170
- Chemotactic response of equine polymorphonuclear leucocytes to *Streptococcus equi* 225
- Chloramphenicol intoxication in neonatal calves: intravenous administration, Experimental 101
- Cimetidine and ranitidine on basal gastric pH, free and total acid contents in horses, Effects of 291
- Clazuril on the endogenous stages of *Eimeria labbeana* and *E. columbarum* in experimentally infected pigeons, Action of the anticoccidial 117
- Clostridium perfringens* introduced into chickens, Effect of *Eimeria tenella* infection on the caecal population of lincomycin-resistant 219
- Clostridium perfringens* isolated from necrotic enteritis of broiler chickens, In vitro lecithinase activity and sensitivity to 22 microbial agents of 337
- Connective tissue degrading enzyme in bovine inflammatory exudate, Identification of 259
- Coronavirus, Attempted immunisation of cats against feline infectious peritonitis using canine 383
- Corpus cavernosum penis in relationship to penile dimensions and age, Venous drainage of 174
- Cytofluorometric analysis, Immune system of swine: dissection of mononuclear leucocyte subpopulations by means of two-colour 311
- Dental configuration among different breeds of sheep 317
- Dermatophilus congolensis*, Use of a monoclonal antibody in the diagnosis of infection by 416

- Development of periodontal disease in a single flock of sheep: clinical signs, morphology of subgingival plaque and influence of antimicrobial agents 324
- Diarrhoea in southern Britain, Pathology of calves with 240
- Dictyocaulus viviparus*, Parenteral vaccination of calves against the cattle lungworm 270
- Duodenal occlusion on electrical activity of the proximal duodenum in cattle, Effects of experimental 186
- Dyschondroplasia on the rate of bone growth in the foal, Effect of 78
- Effect of carrier erythrocytes containing inositol hexaphosphate on *Babesia microti* infection 262
- Effect of dyschondroplasia on the rate of bone growth in the foal 78
- Effect of *Eimeria tenella* infection on the caecal population of lincomycin-resistant *Clostridium perfringens* introduced into chickens 219
- Effect of exercise on the vascular pattern in the bone extremities of broiler fowl 72
- Effect of physical restraint and xylazine sedation on haematological values in red deer (*Cervus elaphus*) 281
- Effect of pregnancy and fetal development on sheep liver superoxide dismutase activity 287
- Effect of selenium on sheep lymphocyte responses to mitogens 11
- Effect of strategic anthelmintic treatment and pasture management on productivity and control of nematode parasites in weaner-yearling beef cattle 31
- Effect of subinhibitory concentrations of tiamulin on the haemagglutinating properties of fimbriated *Escherichia coli* (K88, K99), The 134
- Effects of cimetidine and ranitidine on basal gastric pH, free and total acid contents in horses 291
- Effects of experimental duodenal occlusion on electrical activity of the proximal duodenum in cattle 186
- Effects of trichostrongyle larval challenge on the reproductive performance of immune ewes 234
- Efficacy of infectious bronchitis virus vaccines against heterologous challenge 22
- Eimeria labbeana* and *E. columbarum* in experimentally infected pigeons, Action of the anticoccidial clazuril on the endogenous stages of 117
- Eimeria tenella* infection on the caecal population of lincomycin-resistant *Clostridium perfringens* introduced into chickens, Effect of 219
- ELISA for the measurement of sheep antibodies to the capsular antigens of *Pasteurella haemolytica* serotypes 414
- Epithelial cells, *Ulex europaeus* agglutinin I lectin histochemical staining of dog kidney and bile duct 272
- Epithelial receptor activation by undissociated volatile fatty acids and rumen fluids collected during loss of reticulo-ruminal motility, Ruminant lactic acidosis: Forestomach 364
- Erythrocyte lysis, Analysis of ovine peripheral blood lymphocyte subsets following Ficoll-Hypaque separation of 253
- Escherichia coli* (K88, K99), The effect of subinhibitory concentrations of tiamulin on the haemagglutinating properties of fimbriated 134
- Escherichia coli* of bovine origin, Fimbria-like adhesive factor (EAF 44) from verocytotoxigenic 418
- Exercise on the vascular pattern of bone extremities of broiler fowl, Effect of 72
- Experimental chloramphenicol intoxication in neonatal calves: intravenous administration 101
- Factors affecting the composition of mare uterine fluid 111
- Failure of a recombinant *Babesia bovis* antigen to protect cattle against heterologous strain challenge 267
- Fatty liver in dairy cows, Plasma lipoproteins and 389
- Fibre optics, Autofluorescence of bovine ligamentum nuchae, cartilage, heart valve and lung measured by microscopy and 230
- Ficoll-Hypaque separation or erythrocyte lysis, Analysis of ovine peripheral blood lymphocyte subsets following 253
- Fimbria-like adhesive factor (EAF 44) from verocytotoxigenic *Escherichia coli* of bovine origin 418
- Fine structural changes in the developing gastric gland cells in the ferret during the postnatal period 296
- Foot rot vaccines, Antibody responses of sheep vaccinated with 54
- Gastric gland cells in the ferret during the postnatal period, Fine structural changes in the developing 296
- Haemolytic effect of *Pasteurella haemolytica* on blood from young mammals 255
- Haemonchosis in lambs given continuous infections, Influence of dietary protein on the pathophysiology of 41
- Haemonchus contortus*, Hypergastrinaemia of sheep infected with 124
- Haemonchus contortus* larvae harvested during different times of the patent period to anthelmintics, In vitro response of 264
- Humoral immune system of the equine respiratory mucosa, Immunohistochemical study of the local 160
- Hypergastrinaemia of sheep infected with *Haemonchus contortus* 124
- Hyperthyroidism, Altered disposition of propylthiouracil in cats with 1
- Hyperthyroidism, Autoantibodies in feline 300
- Hypoxia, Physiological and behavioural responses of the domestic hen to 377
- Identification of a connective tissue degrading enzyme in bovine inflammatory exudate 259
- Identification of the phenolic substances in bovine urine associated with oak leaf poisoning 152
- IgG subclass expression during antibody responses in sheep, Modulation of 353
- Immune protection of interferon by cultured peripheral blood mononuclear cells from calves affected with BHV1 and PI3 viruses 198
- Immune system of swine: dissection of mononuclear leucocyte subpopulations by means of two-colour cytofluorometric analysis 311
- Immunisation of pigs with live cultures of *Streptococcus suis* type 2 349

- Immunoelectrophoresis in detection of antibodies to tick-borne fever, Use of counter 28
- Immunohistochemical study of the local humoral immune system of the equine respiratory mucosa 160
- In vitro lecithinase activity and sensitivity to 22 antimicrobial agents of *Clostridium perfringens* isolated from necrotic enteritis of broiler chickens 337
- In vitro response of *Haemonchus contortus* larvae harvested during different times of the patent period to anthelmintics 264
- Indicators of inflammation to evaluate the recovery from acute bovine mastitis 166
- Inflammatory exudate, Identification of a connective tissue degrading enzyme in bovine 259
- Influence of dietary protein on the pathophysiology of haemonchosis in lambs given continuous infections 41
- Influence of selenium on antibody production in sheep 4
- Influence of two levels of concurrent infection with *Ostertagia circumcincta* and *Trichostrongylus vitrinus* in the growth performance of lambs 275
- Inositol hexaphosphate on *Babesia microti* infection, Effect of carrier erythrocytes containing 262
- Interferon by cultured peripheral blood mononuclear cells from calves infected with BHV1 and PI3 viruses, immune protection of 198
- Isolation of *Theileria sergenti* piroplasms from infected erythrocytes and development of an enzyme-linked immunosorbent assay for serodiagnosis of *T sergenti* infections 206
- Larval development test for detection of anthelmintic nematodes, A 50
- Lecithinase activity and sensitivity to 22 antimicrobial agents of *Clostridium perfringens* isolated from necrotic enteritis of broiler chickens, In vitro 337
- Leiomyoma of the ventral ligament of the oviduct of the hen, Spontaneous occurrence and experimental induction of 341
- Levamisole pharmacokinetics and bioavailability in dogs 411
- Lipoproteins and fatty liver in dairy cows, Plasma 389
- Luteolysis in the ewe, A possible role for testosterone during 222
- Mammary glands, Pathogenicity of two strains of *Streptococcus uberis* infused into lactating and non-lactating 400
- Mastitis in ewes, Vaccination against experimental staphylococcal 16
- Mastitis, indicators of inflammation to evaluate the recovery from acute bovine 166
- Mechanics of breathing in goats 332
- Meningitis in the pig, A murine model of *Streptococcus suis* type 2 394
- Mithun cross siri hybrids: cyto- and immunogenetic examinations and characterisation of abnormal spermatogenesis 86
- Mitogens, Effect of selenium on sheep lymphocyte responses to 11
- Modulation of IgG subclass expression during antibody responses in sheep 353
- Morphological defects of the acrosome in boar spermatozoa 149
- Mucosa, Immunohistochemical study of the local humoral immune system of the equine respiratory 160
- Murine model of *Streptococcus suis* type 2 meningitis in the pig, A 394
- Myelinated axons in peripheral nerves of adult beagle dogs: morphometric and electrophysiological measurements 181
- N-pyrrolyl derivative penicillin in several mammalian species, Plasma protein binding of an 132
- Natural infections of pigs with bovine viral diarrhoea virus associated with signs resembling swine fever 137
- Necrotic enteritis of broiler chickens, In vitro lecithinase activity and sensitivity to 22 antimicrobial agents of *Clostridium perfringens* isolated from 337
- Nematode parasites in weaner-yearling beef cattle, Effect of strategic anthelmintic treatment and pasture management on productivity and control of 31
- Nematodes, A larval development test for detection of anthelmintic resistant 50
- Nematodirus infection in lambs on an alternate grazing system of husbandry 62
- Nerves of adult beagle dogs: morphometric and electrophysiological measurements, Myelinated axons in peripheral 181
- Neural consequences of partial toe amputation in chickens 374
- Oak leaf poisoning, Identification of the phenolic substances in bovine urine associated with 152
- Origin of antibody-containing cells in the ovine mammary gland following intraperitoneal and intramammary immunisation 156
- Ostertagia circumcincta* and *Trichostrongylus vitrinus* on the growth performance of lambs, Influence of two levels of concurrent infection with 275
- Ostertagia circumcincta* by implantation of adult parasites into the abomasum of lambs, The production of strains of the sheep parasite 120
- Ostertagia circumcincta*, Susceptibility of the pre-parturient ewe to infection with *Trichostrongylus vitrinus* and 213
- Ostertagia ostertagi* in adult dairy cattle, Blood gastrin and pepsinogen responses to subclinical infection with 130
- Oviduct of the hen, Spontaneous occurrence and experimental induction of leiomyoma of the ventral ligament of 341
- Parenteral vaccination of calves against the cattle lungworm *Dicytycaulus viviparus* 270
- Pasteurella haemolytica* on blood from young mammals, Haemolytic effect of 255
- Pasteurella haemolytica* serotypes, ELISA for the measurement of sheep antibodies to the capsular antigens of 414
- Pathogenicity of two strains of *Streptococcus uberis* infused into lactating and non-lactating bovine mammary glands 400
- Pathology of calves with diarrhoea in southern Britain 240

- Periodontal disease in a single flock of sheep: clinical signs, morphology of subgingival plaque and influence of antimicrobial agents, Development of 324
- Peritonitis using canine coronavirus, Attempted immunisation of cats against feline infectious 383
- Phenolic substances in bovine urine associated with oak leaf poisoning, Identification of 152
- Physal thickness in the growing foal, The relationship between the rate of longitudinal bone growth and 83
- Physiological and behavioural responses of the domestic hen to hypoxia 377
- P13 viruses, Immune protection of interferon by cultured peripheral blood mononuclear cells from calves infected with BHV1 and 198
- Plasma lipoproteins and fatty liver in dairy cows 389
- Plasma protein binding of an N-pyrrolyl derivative penicillin in several mammalian species 132
- Possible role for testosterone during luteolysis in the ewe, A 222
- Production of strains of the sheep parasite *Ostertagia circumcincta* by implantation of adult parasites into the abomasum of lambs, the 120
- Propylthiouracil in cats with hyperthyroidism, Altered dispositions of 1
- Protein on the pathophysiology of haemonchosis in lambs given continuous infections, Influence of dietary 41
- Pulmonary function values and growth in Belgian white and blue double-musled cattle 405
- Ranitidine on basal gastric pH, free and total acid contents in horses, Effects of cimetidine and 291
- Relationship between the rate of longitudinal bone growth and physal thickness in the growing foal, The 83
- Respiratory tract following intraperitoneal and intratracheal immunisation, Specific antibody containing cells in 369
- Restriction endonuclease analysis of *Brucella abortus* 251
- Reticuloruminal motility, Ruminal lactic acidosis: Forestomach epithelial receptor activation by undissociated volatile fatty acids and rumen fluids collected during loss of 364
- Ruminal lactic acidosis: Forestomach epithelial receptor activation by undissociated volatile fatty acids and rumen fluids collected during loss of reticuloruminal motility 364
- Selenium deficient and selenium sufficient cattle, Thyroid hormone concentrations in 122
- Selenium on antibody production in sheep, Influence of 4
- Selenium on sheep lymphocyte responses to mitogens, Effect of 11
- Seminal glomus in budgerigars (*Melopsittacus undulatus*), Ultrastructure and secretory nature of 194
- Serum immunoglobulin A concentrations in normal and diseased dogs 360
- Skeletal muscle in vivo, Technique for physiological examination of canine 127
- Specific antibody containing cells in the porcine respiratory tract following intraperitoneal and intratracheal immunisation 369
- Spermatogenesis, Mithun cross siri hybrids: cyto- and immunogenetic examinations and characterisation of abnormal 86
- Spermatozoa, Morphological defects of the acrosome in boar 149
- Spontaneous occurrence and experimental induction of leiomyoma of the ventral ligament of the oviduct of the hen 341
- Streptococcus equi*, Chemotactic response of equine polymorphonuclear leucocytes to 225
- Streptococcus suis* type 2, Immunisation of pigs with live cultures of 349
- Streptococcus suis* type 2 meningitis in the pig, A murine model of 394
- Streptococcus uberis* infused into lactating and non-lactating bovine mammary glands, Pathogenicity of two strains of 400
- Studies on canine parvovirus infection: preparation of challenge virus 170
- Subgingival plaque and influence of antimicrobial agents, Development of periodontal disease in a single flock of sheep: clinical signs, morphology of 324
- Superoxide dismutase activity, Effect of pregnancy and fetal development on sheep liver 287
- Surgical trauma, Acute phase response in the dog following 107
- Susceptibility of the pre-parturient ewe to infection with *Trichostrongylus vitrinus* and *Ostertagia circumcincta* 213
- Swine fever, Natural infections of pigs with bovine viral diarrhoea virus associated with signs resembling 137
- Swine fever with contaminated vaccine, Bovine viral diarrhoea virus in piglets born to sows vaccinated against 143
- Technique for physiological examination of canine skeletal muscle in vivo 127
- Testosterone during luteolysis in the ewe, A possible role for 222
- Theileria sergenti* piroplasms from infected erythrocytes and development of an enzyme-linked immunosorbent assay for serodiagnosis of *T. sergenti* infections, Isolation of 206
- Therapy of Aujeszky's disease (pseudorabies) in naturally infected and artificially induced piglets using BW B759U (9-[1,3-dihydroxy-2-propoxymethyl] guanine) 54
- Thyroid hormone concentrations in selenium deficient and selenium sufficient cattle 122
- Tiamulin on the haemagglutinating properties of fimbriated *Escherichia coli* (K88, K99), The effect of subinhibitory concentrations of 134
- Tickborne fever, Use of counter immunoelectrophoresis in detection of antibodies to 28
